CRICKET **SMAAASH**

Sachin Tendulkar found this game to provide the most authentic feel of playing in an actual stadium before a live, cheering crowd. This is achieved using the sophisticated Hawk-Eye technology and a high-speed tracking camera which records the speed of the ball once the player has hit it. Also, we have coded accurate bowling-action libraries with a record of all your favourite bowlers' exact style of bowling. So bat against bowling legends like Brett Lee, Shane Warne, Lasith Malinga and Shahid Afridi, and try adjusting to their unique actions, seam movement, spin and speed. To ensure that players varying from children to professionals enjoy the game, there are five different levels based on your skills - Junior, Beginner, Amateur, County, and International. Every feature of the game focuses on ensuring that you have the Smaaash Cricket experience of your life.

FEATURES
