

FLY-MAX

DESCRIPTION :

Flymax is a virtual paragliding game which gives you the real experience of paragliding. Paragliding is not only for adventure enthusiasts, with Smaaash's Flymax, it is now possible for kids as well as adults. With the Oculus giving you the bird's eye view of the nature from a high altitude and you getting to control the glider as it happens in real life; sway right and left and have an illusion of hovering in the skies, as this virtual reality ride sends your hair flying, all this would make you feel nothing less than an actual paraglider.
