

EXTREME DRONE RACING

DESCRIPTION :

Wear your Oculus gear and get your drones racing, via a remote control. You have to race the other drones and emerge as the ultimate winner. Don't let the drones lose their path to achieve the maximum speed. Other Drones come neck to neck and you have to be on your toes to win this race. Achieve the maximum control over your drone using a thrust lever which controls the speed along with various other buttons and a Joystick for directional control.

Technical Specifications	
Operator Required	Yes
On-site Technician required	Common
