

ICE HOCKEY - WHAT THE PUCK

DESCRIPTION :

In Smaaash Ice Hockey, you go one on one against our robot keeper in a penalty shootout. This goalkeeper will amaze you, no matter how fast you shoot or how well you aim, the robokeeper will stop almost any shot. This isn't luck or magic, it's cutting edge technology! The eyes of this robokeeper are the high-tech cameras that sharply track the puck. It takes real skills to shoot the puck at a flashing speed to miss these cameras and hit the net. This keeper swiftly moves from left to right along its set path tracking the puck. Only 2 people at the Mall of America have scored 5 consecutive goals against this goalie amongst the many who have tried.

Technical Specifications

Operator Required	Yes
On-site Technician required	Common
Height / Width / Length(Depth) - (Feet)	11/16/36
Floor area required	576
Weight (KG)	950
Static floor loading (kg/sq ft)	1.6
Shipping weight	1200
Can be dismantled	Yes
Structural Bolting To floor required	Yes - required

Electrical Requirements

North America	208 V Tri Phase & 110V Single Phase
Outside North America	400 V Tri Phase & 220V Single Phase

TIME PER GAME

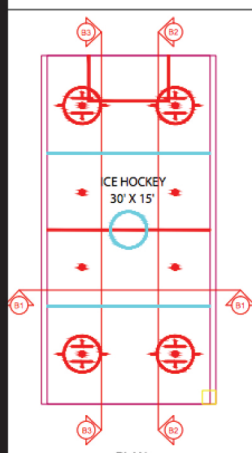

90 sec

NO. OF PLAYERS

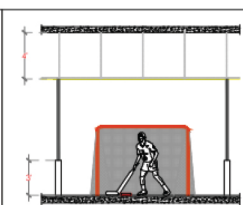

1 max
